PATIENT NOTIFICATION OF PRIVACY RIGHTS

The Health Insurance Portability and Accountability Act (HIPPA) has created new patient protections surrounding the use of protected health information. Commonly referred to as the "medical records privacy law," HIPPA provides patient protections related to the electronic transmission of data ("the transaction rules"); the keeping and use of patient records ("privacy rules"); and storage and access to health care records ("the security rules"). HIPPA applies to all health care providers, including mental health care. Providers and health care agencies throughout the country are now required to provide patients a notification of their privacy rights as it relates to their health care records. You may have already received similar notices such as this one from your other health care providers.

As you might expect the HIPPA law and regulations are extremely detailed and difficult to grasp if you don't have formal legal training. Our Patient Notification of Privacy Rights is our attempt to inform you of your rights in a simple yet comprehensive fashion. Please read this document as it is important you now what patient protections HIPPA affords all of us. In primary care and mental health care, confidentiality and privacy are central to the success of a therapeutic relationship; and as such, you will find we will do all we can to protect the privacy of all medical and mental health records. If you have any questions about any of the matters discussed in this document, please do not hesitate to ask us for further clarification.

By law, we are required to secure your signature indicating you have received this Patient Notification of Privacy Rights document. Thank you for your thoughtful consideration of these matters

I understand and have been provided a copy of Getz Internal and Behavioral Services LLC's Patient Notification of Privacy Rights document which provides detailed description of the potential uses and disclosures of my protected health information, as well as my rights on these matters. I understand I have the right to review this document before signing this acknowledgement form.
